Dedicated professional with a strong foundation in software development and IT support. Eager to apply and expand my knowledge and skills in a dynamic organization. Committed to contributing to both organizational success and personal growth

## UI / UX DESIGN PROJECT

- FOOD WEBSITE**
  - Cards Layout:** Recipes and dishes are displayed as cards, each showing an image, title, prep time, and ratings.
  - Filters and Tags:** Users can filter content by dietary preferences, cuisine, cooking time, and difficulty level.
  - Responsive Design:** The UI adapts seamlessly to desktops, tablets, and mobile devices for an optimal experience.
  - Navigation Bar:** A sticky navbar with easy access to categories like Recipes, Restaurants, Meal Plans, and About Us.

## UI/UX DESIGN PROJECT

- KSC CHIMES EDUCATIONAL PLATFORM**
  - Real-Time Updates:** Ensures all school-related updates are accessible directly through the app.
  - Homework and Test Management:** Enables seamless submission and tracking of homework and tests.
  - Student Bus Tracking:** Provides a real-time bus tracking system for enhanced safety and convenience.
  - Leave Management:** Features a streamlined leave request and approval process for students and parents.
